Genus	Species	Origin	Description	Light Condition	Potential Plant Size	Growing Temps	Container size - mm					
							100	140	200	250	300	>300
Ceratozamia	hildae	Mexico	Interesting leaf pattern. Has plumose, grouped leaflets.	4	S	1-2		\$25	\$75			
	kuesteriana	Mexico	Develops trunk. Dark green narrow foliage v. adaptable.	4	S	1-3		\$25		\$75		
	robusta sp. belize	Belize	Robust growing bronze emergent leaves.	3	M	1-2		\$15				
	robusta sp. santiago tuxla	Mexico	Large erect growing - 2m long leaves	3	M	1-2		\$15				
	sp. palma sola	Mexico	Lime green emergent leaves to 1m.	4	M	1-2	\$15					
	sp. presa miquel alamen	Mexico	Rare in cultivation. Orange flush leaves to 1.5m long	5	S	1-2	\$50					
Cycas	bougainvilleana	PNG	Large growing. Feature plant 2m+ leaves.	2	L	1-2						\$120+
	chamberlainii	Phillipines	Shorter erect leaves, dark green. Semi-formal look.	2	M	1-2			\$35	\$45		
	circinalis	India	First described sp. True plant from India.	2	M	1-2			\$50			
	curranii	Philippines	Similar to C. rumphii but with narrow leaflets.	2	L	1-2						\$120+
	hainanensis	China	Showy erect leaves. Dark green. Very adaptable.	2	L	1-2				\$35		
	lindstromii	Vietnam	Small subterranean. Short dark green leaves.	2	S	1-2			\$95			
	micholitzii	Vietnam	Dark green erect divided leaflets	4	S	1-2		\$35				
	micholitzii x revoluta	Hybrid	Hybrid with interesting results	3	S	1-2				\$60		
	panzhihuaensis	China	Thick trunk. Short leaves. Narrow leaflets. Very cold hardy	2	M	1-4					\$60	
	pectinata	Thailand	Large trunk, fine leaf. Very ornamental.	2	L	1-2				\$45	\$75	\$130+
	revoluta	Japan	Most widely used cycad in the world.	2	L	1-3					\$50	\$90+
	seemannii	N.Caledonia	Few spines - user friendly!	2	L	1-2					\$45	\$75+

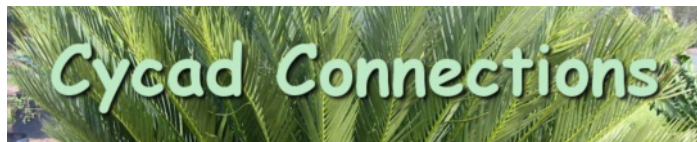

281 Buckley Road, Burpengary, Qld, 4505. Phone: (07) 5498 6868 E-mail: sales@cycadconnections.com.au Website: www.cycadconnections.com.au

Genus	Species	Origin	Description	Light Condition	Potential Plant Size	Growing Temps	Container size - mm					
							100	140	200	250	300	>300
Cycas	siamensis	Thailand	Slightly variable species good shape plant.	2	M	1-2			\$60	\$90		
	sp. "panay is."	Philippines	New species to be named soon. Deciduous in cool climate.	2	M	1-2				\$45	\$100	\$120+
	taitungensis	Taiwan	Exc. ornamental ldsce plant. Fast grower, sim.revoluta	2	L	1-3					\$50	\$75+
	tansachana	Thailand	Very rare in habitat. Large growing trunk.	2	L	1-2			\$75			
	wadei	Philippines	Narrow leaflets, upright growth. Cones when small.	2	M	1-2				\$55	\$75	\$90+
Dioon	angustifolium	Mexico	Small, slow growing. Suckers readily. Compact.	2	S	1-3		\$15	\$70	\$90		
	califanoi	Mexico	Stiff leaflets - grey/green . New leaves woolly. Hardy.	2	M	1-3				\$60		
	edule var edule	Mexico	Blue/green leaflets. Slow growing. Small white cones.	2	M	1-3				\$90		
	holmgrenii	Mexico	Rare, medium sized Dioon. Green colour.	2	M	1-3			\$80			
	mejiae	Honduras	Fast growing, large leaflets. Very woolly new leaves.	1	L	1-2			\$20	\$60	\$85	\$150+
	merolae	Mexico	Medium length leaves, full sun.	2	L	1-2	\$20		\$65		\$160	
	purpusii	Mexico	Erect habit. New leaves very hairy - rare.	2	L	1-3	\$35					
	sonorensis	Mexico	Shorter leaved to 1m. Glaucous blue.	2	M	1-3			\$80	\$130		
	sp.palma sola	Mexico	Edule type. Different looking cones, leaves < 1m	2	M	1-3				\$95		
	sp. quertaro	Mexico	Edule type. Blue/green coloured leaves, pink flush	2	M	1-3	\$10					
	sp. Victoria	Mexico	Edule type. Very large cones.	2	M	1-3			\$35			
	spinulosum	Mexico	Large growing. Exc. landscape plant. Adaptable.	1	L	1-3					\$65	\$150+
	tomasellii	Mexico	Falcate Leaflets/ Rare in cultivation	2	M	1-3	\$30

Genus	Species		Description				Container size – mm						
							100	140	200	250	300	>300	
Encephalartos	altensteinii	RSA	Slightly green recurved foliage. Very thick trunk.	2	L	1-3							\$300+
	arenarius	RSA	Impressive plant, blue green leaves.	1	M	1-2	\$35						
	cerinus	RSA	Extinct in the wild. Grey green leaves.	2	S	1-3			\$60				
	concinus	RSA/Zimbab	Dark green, elegant feature plant.	2	M	1-3	\$15	\$30					
	dyerianus	RSA	Blue leaves, erect growing – rare.	2	M	1-3	\$55						
	eugene-maraisii	RSA	Greyish green leaves. Rare in cultivation. Ornamental.	2	L	1-3	\$60						
	gratus	Mozambique	Very large dark green leaves 3m long. Large red cones.	2	L	1-3			\$30	\$45	\$125		
	horridus	RSA	Blue leaves, very spiny. Slow Growing.	2	S	1-3	\$55						
	inopinus	RSA	Rare. Blue/green from a dry area.	2	M	1-3	\$65						
	ituriensis	D.R.Congo	Very large growing plant - up to 3m leaves.	1	L	1-2		\$35					
	laevifolius	RSA	Narrow leaflets, bluish colour.	2	M	1-3	\$55						
	laurentianus	D.R.Congo	Very large and fast growing.	1	L	1-2		\$35					
	munchii	Mozambique	Blue/green. Erect. Suckers freely.	1	M	1-2				\$100			
	natalensis	RSA	Easy to grow. Has variable leaf shape and large cones.	2	L	1-3					\$125	\$200+	
	pterogonus	Mozambique	Rare. Unusual winged male cones.	2	M	1-2		\$40					
	sclavoi	Tanzania	Blue/Green leaves. Ornamental orange cones.	2	M	1-2		\$25					\$200+
	senticosus	RSA	Spectacular. Similar to E. natalensis.	2	M	1-3			\$25		\$125		
	trispinosus	RSA	Blue. Great feature plant.	2	M	1-3		\$45					
	turneri	Mozambique	Rarely grown specie. Yellow cones.	2	M	1-2		\$30					
	whitelockii	Uganda	Dark green, long leaves. Massive trunk.	1	L	1-2		\$30

Genus	Species		Description				Container size – mm						
							100	140	200	250	300	>300	
Encephlartos	woodii x natalensis x woodii	Hybrid	Rare. 2 nd generation E. woodii back-cross.	2	L	1-3			\$160				
Stangeria	eriopus	RSA	Unusual species often mistaken as a fern. Wide leaflets.	1	S	1-2	\$20	\$35	\$60				
Zamia	amblyphyllidia	Cu/PR/Jam	Hardy plant. Quite wide leaflet. Very adaptable.	1	S	1-3			\$30				
	amblyphyllidia x sp. new providence	Hybrid	Hybrid. Wide, bronze coloured emergent leaflets.	1	S	1-2			\$50				
	angustifolia	Bahamas/Cuba	Narrow leaves emerge chocolate. Full sun.	2	S	1-3	\$15		\$25				
	fischeri	Mexico	Compact feature plant, great for borders. Very Rare.	1	S	1-2	\$10	\$18					
	furfuracea	Mexico	Most popular Zamia. Very stiff leaves and leaflets.	2	S	1-2					\$45	\$100+	
	hybrid 'interport'	Hybrid	Outstanding hybrid. Lime green. Great in any position.	1	S	1-2					\$90		
	inermis	Mexico	Lime green leaves. No spines.	2	S	1-2			\$60				
	integrifolia	Florida	Very wide spread. Grows in a range of climates.	1	S	1-3					\$60		
	katzeriana syn. spendens	Mexico	Spectacular new red leaf. Okay in cool protected areas.	5	S	1-2	\$20	\$35					
	lacondona	Mexico	Very rare in cultivation. 2m long reddish emergent leaf.	6	S	1	\$35						
	lecointei	Brazil	Rare. Hard to grow specie.	6	S	1		\$135					
	muricata	Ven/Colum	Common grown cycad that should be more widely grown.	5	S	1-2							
	paucijuga	Mexico	Neat appearance. Lime green. Adaptable.	4	S	1-3							
	polymorpha	Mexico	Variable leaf form. Lime green foliage.	4	S	1-3			\$30				
	portoricensis	P/Rico	Perfect for borders and edges. Bright green & compact.	2	S	1-3		\$20					

281 Buckley Road, Burpengary, Qld, 4505. Phone: (07) 5498 6868 E-mail: sales@cycadconnections.com.au Website: www.cycadconnections.com.au

Genus	Species		Description				Container size – mm						
							100	140	200	250	300	>300	
Zamia	pumila	Dom / Republic	The first Zamia described. Dark green stiff leaflets.	2	S	1-3			\$25				
	purpurea	Mexico	Showy orange to copper new leaf	5	S	1-2	\$30						
	pygmaea	Cuba	Dark green, small growing. Very Rare.	1	S	1-2	\$30						
	pygmaea hybrid	Hybrid	Great hybrid. Compact with great landscape potential.	1	S	1-2		\$50					
	sandovalii	Honduras	Rare in cultivation. Cliff growing, green leaves to 2m.	6	S	1	\$35						
	skinneri	Panama	Corrugated leaflets up to 30cm long.	6	S	1-2		\$30					
	sp. cayman island	Bahamas	Form of Z integrifolia with wide thick leaves.	1	S	1-2	\$15						
	sp. cuba	Cuba	Small erect growing tan-green cones.	2	S	1-2	\$45						
	sp. florida coontie	USA	Narrow leaves. Much narrower than Z integrifolia.	1	S	1-3	\$15						
	sp. new providence	Bahamas	Z. integrifolia-like. New leaves emerge chocolate brown.	1	S	1-2	\$15						
	spartea	Mexico	Very narrow leaflets. Bronze emergent leaves.	2	S	1-2			\$95				
	splendens / katzeriana	Mexico	Spectacular new red leaf. Okay in cool protected areas.	5	S	1-2	\$20	\$35					
	standleyi	Honduras	Rare in cultivation. New leaves emerge purple.	1	S	1-2		\$30	\$50				
	variegata	Mexico	Naturally variegated. Leaves dark green with yellow spots.	4	S	1-2		\$15	\$25				
	vazquezii	Mexico	Similar to Z. fisherii but larger and more upright.	1	S	1-3		\$25	\$40				

Seeds Available:

		A\$ per 1000
Cycas	revoluta	\$250.00
Cycas	taitungensis	\$450.00

Key to Growing Conditions

<u>Light Conditions</u>	1	=	Full sun thru to full shade
	2	=	Full sun thru to part shade
	3	=	Part sun thru to part shade
	4	=	Part sun thru to full shade
	5	=	Part shade thru to full shade
	6	=	Requires full shade

<u>Potential Plant Size</u>	S	=	Small
	M	=	Medium
	L	=	Large

<u>Growing Temperature</u>	1	=	Tropical
	2	=	Tolerates cool weather, no frost
	3	=	Tolerates light frost
	4	=	Tolerates light snow
